

Safety Data Sheet

according to WHS Regulations

Printing date 29.11.2022

Version number 01-00

Revision: 29.11.2022

1 Identification**Product identifier**Trade name: **LUCITE® 408 MultiResist Pro****Relevant identified uses of the substance or mixture and uses advised against**

No further relevant information available.

Application of the substance / the mixture Coating agent**Uses advised against**

This product is not suitable for uses other than those specified in the "Use of the substance/mixture". If your particular manner of use is not listed, please contact the creator of this safety data sheet.

Details of the supplier of the safety data sheet**Manufacturer/Supplier:**

Dörken Coatings GmbH & Co. KG
Wetterstr. 58
58313 Herdecke
Germany
www.doerkencoatings.de

Phone: +49 2330 63 243

Fax: +49 2330 63 100 243

Further information obtainable from: msds.coatings@doerken.de**Emergency telephone number:**

Australia: 61-290372994

United Kingdom: 44-870-8200418 and 44-2038073798

2 Hazard(s) Identification**Classification of the substance or mixture**

The product is not classified, according to the Globally Harmonised System (GHS).

Label elements**GHS label elements** Void**Hazard pictograms** Void**Signal word** Void**Hazard statements** Void**Other hazards****Results of PBT and vPvB assessment****PBT:** Not applicable.**vPvB:** Not applicable.**3 Composition and Information on Ingredients****Chemical characterisation: Mixtures****Description:** Mixture of substances listed below with nonhazardous additions.

(Contd. on page 2)

Safety Data Sheet

according to WHS Regulations

Printing date 29.11.2022

Version number 01-00

Revision: 29.11.2022

Trade name: **LUCITE® 408 MultiResist Pro**

(Contd. of page 1)

Dangerous components:

93763-70-3	amorphous alimina silicate	<5%
------------	----------------------------	-----

Additional information: For the wording of the listed hazard phrases refer to section 16.

4 First Aid Measures

Description of first aid measures

General information:

In all cases of doubt, or when symptoms persist, seek medical advice.

Soiled, soaked clothes immediately take off.

Never give anything by mouth to an unconscious person.

After inhalation: Supply fresh air; consult doctor in case of complaints.

After skin contact: Wash with plenty of soap and water.

After eye contact:

Remove contact lenses. Keep eye lids open and rinse plentifully for at least 10 minutes with clean running water. Subsequently consult an ophthalmologist.

In case of troubles or persistent symptoms, consult an ophthalmologist.

After swallowing:

Rinse out mouth and then drink plenty of water.

Seek immediate medical advice.

Information for doctor:

Most important symptoms and effects, both acute and delayed No further relevant information available.

Indication of any immediate medical attention and special treatment needed Symptomatic treatment.

5 Fire Fighting Measures

Extinguishing media

Suitable extinguishing agents:

Extinguishing powder, foam, carbon dioxide.

Use fire extinguishing methods suitable to surrounding conditions.

For safety reasons unsuitable extinguishing agents: Water with full jet

Special hazards arising from the substance or mixture

Fire will produce dangerous decomposition products like dense, black smoke, carbon dioxide (CO₂), carbon monoxide (CO) and nitrogen oxides (NO_x). Inhalation may cause serious health damage.

Under certain fire conditions, traces of other toxic gases cannot be excluded.

Advice for firefighters

Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

(Contd. on page 3)

Safety Data Sheet

according to WHS Regulations

Printing date 29.11.2022

Version number 01-00

Revision: 29.11.2022

Trade name: LUCITE® 408 MultiResist Pro

(Contd. of page 2)

Additional information

Collect contaminated fire fighting water separately. It must not enter the sewage system.

6 Accidental Release Measures**Personal precautions, protective equipment and emergency procedures**

Wear protective equipment. Keep unprotected persons away.
Avoid contact with skin and eyes.

Environmental precautions:

Do not allow product to reach sewage system or any water course.
Inform respective authorities in case of seepage into water course or sewage system.
Keep contaminated washing water and dispose of appropriately.

Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
Dispose of the material collected according to regulations.

Reference to other sections

See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

7 Handling and Storage**Handling:****Precautions for safe handling**

Avoid prolonged, intensive skin contact and contact with the eyes.
Avoid the handling of incompatible substances and mixtures. Incompatible substances: see section 10.5

Information about fire - and explosion protection: No special measures required.

Conditions for safe storage, including any incompatibilities**Storage:****Requirements to be met by storerooms and receptacles:**

Make sure spills can be contained, e.g. in sump pallets.
Protect from frost, heat and direct sunlight. Keep tightly closed, cool and dry.

Information about storage in one common storage facility: Store away from foodstuffs.

Further information about storage conditions: None.

Storage class: 12

Specific end use(s) No further relevant information available.

8 Exposure controls and personal protection**Additional information about design of technical facilities:**

Ensure a good ventilation. This can be achieved by local exhaustion or general exhaust air.

(Contd. on page 4)

Safety Data Sheet

according to WHS Regulations

Printing date 29.11.2022

Version number 01-00

Revision: 29.11.2022

Trade name: **LUCITE® 408 MultiResist Pro**

(Contd. of page 3)

Control parameters

Ingredients with limit values that require monitoring at the workplace:

93763-70-3 amorphous alimina silicate

WES (Australia)	Long-term value: 10 mg/m ³
PEL (USA)	Long-term value: 15* 5** mg/m ³ *total dust **respirable fraction
REL (USA)	Long-term value: 10* 5** mg/m ³ *total dust **respirable fraction
TLV (USA)	TLV withdrawn

Regulatory information

PEL (USA): Guide to Occupational Exposure Values (OSHA PELs)

REL (USA): Guide to Occupational Exposure Values (NIOSH RELs)

TLV (USA): Guide to Occupational Exposure Values (TLV)

Additional information: The lists valid during the making were used as basis.

Exposure controls Provide good ventilation and/or an exhaust system in the work area.

Personal protective equipment:

General protective and hygienic measures:

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

Immediately remove all soiled and contaminated clothing

Do not eat, drink, smoke or sniff while working.

Use skin protection cream for skin protection.

Respiratory protection:

Use always breathing protection with splashing medium.

Use combination filter type A(-P2) according to EN 141.

Protection of hands:

Work with gloves. Gloves must be inspected for damage before use. Defective or damaged gloves must not be used. Gloves must satisfy the specifications of EC directive 89/686/EWG and standard EN 374.

Material of gloves

Nitrile rubber

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection: Wear protective goggles to protect against splashing.

Body protection: Impervious protective clothing

9 Physical and Chemical Properties

Information on basic physical and chemical properties

General Information

Appearance:

Form:	Fluid
Colour:	Different according to colouring

Odour: Low odour

Odour threshold: For mixtures not applicable.

pH-value at 20 °C: 10-<11.5

Change in condition

Melting point/Freezing point: Not security-related.

Initial boiling point and boiling range: 100 °C

Flash point: Not applicable.

Flammability (solid, gas): Not applicable.

Ignition temperature: Not applicable.

Decomposition temperature: For mixtures not applicable.

Auto-ignition temperature: Product is not selfigniting.

Explosive properties: Product does not present an explosion hazard.

Explosion limits:

Lower:	Not determined.
Upper:	Not determined.

Oxidising properties In its condition as supplied, the product is neither flammable nor oxidising.

Vapour pressure at 20 °C: 23 hPa

Density at 20 °C: 1.51-1.63 g/cm³

Vapour density Not applicable.

Evaporation rate For mixtures not applicable.

Solubility in / Miscibility with water:

polar solvents:	Miscible / waterdilutable.
non-polar solvents:	Partly miscible.
	Not miscible or difficult to mix.

Partition coefficient: n-octanol/water: For mixtures not applicable.

(Contd. on page 6)

Safety Data Sheet

according to WHS Regulations

Printing date 29.11.2022

Version number 01-00

Revision: 29.11.2022

Trade name: **LUCITE® 408 MultiResist Pro**

(Contd. of page 5)

Viscosity: Not security-related.

Other information No further relevant information available.

10 Stability and Reactivity

Reactivity

No dangerous reactions are known.

No further relevant information available.

Chemical stability Product is stable under normal storage conditions.

Possibility of hazardous reactions

No dangerous reactions known.

No dangerous reactions are known.

Conditions to avoid No further relevant information available.

Incompatible materials: strong oxidizing agents

Hazardous decomposition products:

In case of fire arise: smoke and carbon oxides. Under certain fire conditions tracks of other toxic products can not be excluded.

11 Toxicological Information

Information on toxicological effects

Acute toxicity

LD/LC50 values relevant for classification: No further relevant information available.

Specific symptoms in biological assay:

Skin corrosion/irritation May cause irritations.

Serious eye damage/irritation May cause irritations.

Respiratory or skin sensitisation No sensitising effects known.

Additional toxicological information: Carcinogenic.

CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

The product is not classified as carcinogenic, mutagenic or toxic to reproduction (CMR properties).

Aspiration hazard

The mixture contains no or only small amounts of materials which are classified as an aspiration hazard. It can therefore be assumed that the mixture is not an aspiration hazard.

12 Ecological Information

Toxicity

Aquatic toxicity: There are no statements/information available of the preparation.

Persistence and degradability No further relevant information available.

(Contd. on page 7)

Safety Data Sheet

according to WHS Regulations

Printing date 29.11.2022

Version number 01-00

Revision: 29.11.2022

Trade name: **LUCITE® 408 MultiResist Pro**

(Contd. of page 6)

Behaviour in environmental systems:

Bioaccumulative potential No further relevant information available.

Mobility in soil No further relevant information available.

Ecotoxicological effects:

General notes:

Rinse off of bigger amounts into drains or the aquatic environment may lead to increased pH-values. A high pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably reduced, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

Results of PBT and vPvB assessment

This product does not contain relevant substances that have been assessed as persistent, bioaccumulative and toxic (PBT) or as very persistent and very bioaccumulative (vPvB).

PBT: Not applicable.

vPvB: Not applicable.

Other adverse effects No further relevant information available.

13 Disposal considerations

Waste treatment methods

Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

Must be specially treated adhering to official regulations.

14 Transport information

UN-Number ADG, ADN, IMDG, IATA	Void
UN proper shipping name ADG, ADN, IMDG, IATA	Void
Transport hazard class(es) ADG, ADN, IMDG, IATA Class	Void
Packing group ADG, IMDG, IATA	Void
Environmental hazards:	Not applicable.
Special precautions for user	Not applicable.
Transport in bulk according to Annex II of Marpol and the IBC Code	Not applicable.
